Acknowledgements

Students from IES FX LLUCH i RAFECAS want to thank the members of **La Vilanova d'abans Facebook Group**, for having come to our school to give us interesting speeches and for having offered us their help and collaboration at any time we have needed it.

I give especial thanks to the schools which with we worked and also to the principal of my school as well as the pedagogical coordinator.

And my last thanks, now as a teacher, is for my lovely students who worked hard on this project.

Anna Maria Brull López

Mrs Maria Pia Gaudino, Mr Angelo Talento and Mrs Caterina Zibella teachers from **ICASMazzocchi** would like to thank first of all Etwinning for this wonderful opportunity of growing through the path of condision and enrichment. We would like to thank our students and their families for the efforts and time they dedicated to this project. We would like to thank our Headteacher for his participation in every step of the project. We would like to thank all the Grandparents that came to our school and gave us the richness of their telling and of their love. We would like to thank the schools that cooperated with us hoping that the collaboration with them will continue.

Maria Pia Gaudino, Caterina Zibella and Angelo Talento

My town and its people in the past.

In this project, students have learnt things about how their town looked like in the past. They have compared with the present ,places of the past which maybe no longer exist or have changed.

They have also talked to their elderly people, their own grandparents, neighbours and friends of their family who lived their youth and middle-age in the last century.

Therefore, it is not only a project on places, monuments, museums, factories, shops...it is also an intergenerational project where students have had the opportunity to discover more things about the past of their own town and its people.

CASERTA
ITALY

Our school is " Alessio Simmaco Mazzocchi" situated in Santa Maria Capua Vetere in the city of Caserta, and our students are from 3 to 14 years old: they attend pre-primary, primary and secondary school.

Our school is named after the Italian archeologist, biblist and philologist Alessio Simmaco Mazzocchi born in 1684 21st October in the seventeenth building in Strada Della Croce that nowadays we know as Palazzo Mazzocchi In Mazzocchi Street.

by Giordana Scolavino, Alessandro Spina, Benedetta Seghizzi e Alessia Ambrosino 1C and 1G

ICS A. S. Mazzocchi - S. Maria C. V.

Who is the illustrious character that gives his name to our school?

Alessio Simmaco Mazzocchi, connoisseur of Greek, Latin and Hebraic language, stood out from the crowd in Naples' Archbishop's Seminary.

He became a member of "L'Académie des inscriptions et belles-lettres du Paris".

He was also a member of The Accademia Ercolanense.

He published about historic finds found in the buried cities from the volcanic eruption of the Vesuvius vulcano in 79 B.C.

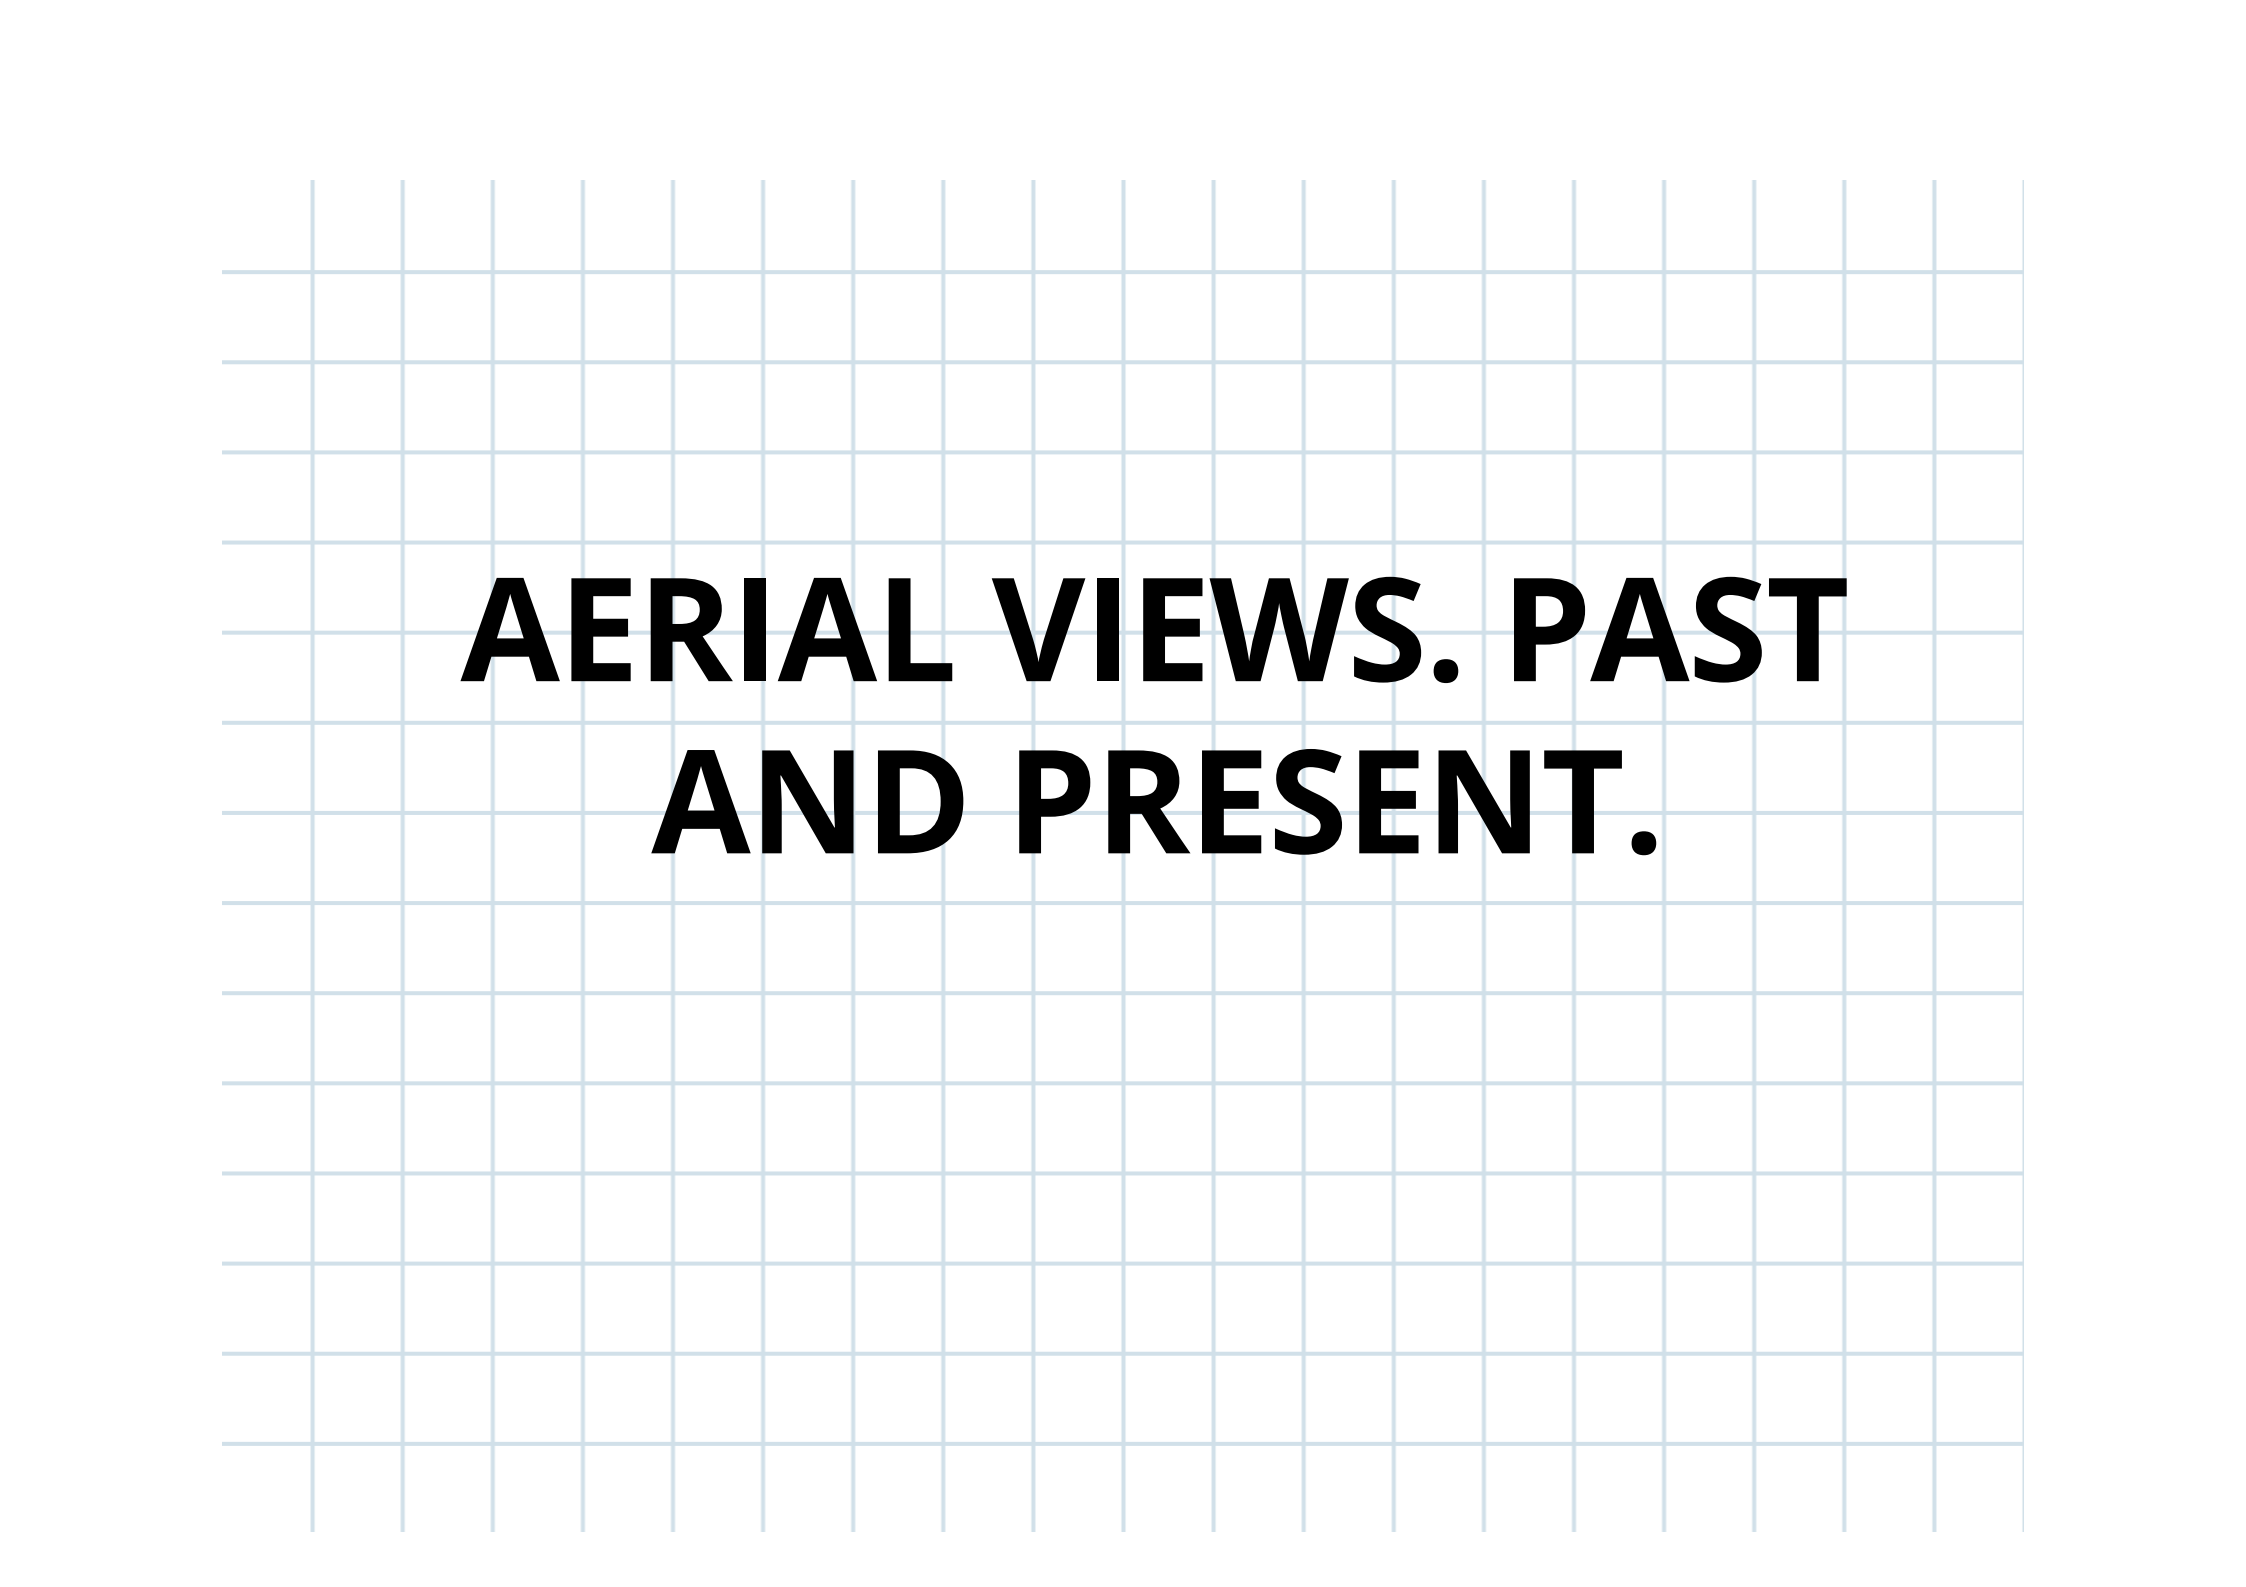

Among his tasks there was the complex decryption of the Papyrus found in Villa dei Pisoni in Ercolano.

He liked the study of the ruins and of the ancient books found in Santa Maria Capua Vetere.

He always denounced the abuses towards historical works.

Vilanova

In the XIX century, Vilanova was a very small city full of farmers and sailors. A few years later, the city started having contact with a company named Pirelli so it began to be an important place.

Now, Vilanova it's still a city of sailors, but it has evolved a lot, now about 66,300 people live here, it has changed a lot of tourist spots, and it's the 17th biggest city in Catalunya

SQUARES AND IMPORTANT STREETS

LA PLAÇA DE LA VILA (Town Hall square)

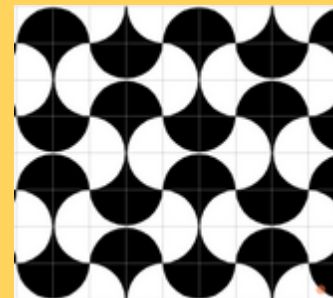

IES FX LLUCH I RAFECAS
Vilanova i la Geltrú

The current Plaça de la Vila occupies a space where the Capuchin Friars Convent was. The convent was put up for sale in 1835. In 1845 Josep Parellada, a business man, bought it. Later, the building became the property of Josep Tomàs Ventosa i Soler, who proceeded to demolish the construction to build some free schools. In 1851 Mr. Ventosa gave part of the land to the municipality and began to configure the current square. In 1864 the schools were inaugurated, in 1867 the Town Hall and in 1874 the adjacent building.

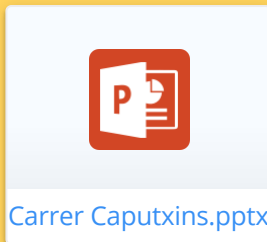

The Plaça de la Vila is located in the center of the city. It has a rectangular floor and has porches on two of the largest façades. The town Hall and one of the main local libraries are in this square.

Carrer Caputxins.

Its name comes from the monks convent that there used to be in the area. Some people say that there was a secret tunnel underneath the street.

Nowadays, is one of the most important comercial streets of the city, it used to have some very old shops, but unfortunetly only a few of them are still running today

PLAÇA DE LES COLS

IES FX LLUCH I RAFECAS
Vilanova i la Geltrú

The first stores, vegetable-filled caves, gave the name to the square, called the vegetable from the mid 19th century. It was formed in the early 18th century. The name is given by the fact that in the year 1732 farmers went there to sell their vegetables. The vegetable market was maintained throughout the 19th century until the opening of the new market.

Nowadays, Plaça de les Cols is a leisure space where children play and there are clothing stores and other centers, there are also cafes to eat, restaurants for lunch, dinner ... Some buildings have been preserved, although they have been renovated.

The church was consecrated in 1784. There was a "rambla" (wide pedestrian walk) with trees on its sides. Els Josepets was a classical baroque convent.

NEW JOSEPETS

Now, Església dels Josepets, after the reforms it had. It is no longer a "rambla", because there is a street with a square, called Plaça dels Josepets. In the middle of the square there is a roundabout with a tree.

PIRELLI FACTORY

IES FX LLUCH I RAFECAS
Vilanova i la Geltrú

The Pirell factory was fundate in 1872 in Milan by Giovanni Battista Pirelli. The first years they produce rubber, but in 1879 they start making electric cables.

This factory was trained in Vilanova i la Geltrú in 1902 at a time of major economic and social decline: financial crisis, phloxera plague, loss of colonial markets for textile companies, bankruptcy of several railway companies.

The Pirelli's factory is situated near 1 d'octubre square in Vilanova i la Geltrú.

Nowadays, this factory is abandoned. The factory is surrounded by a kind of field. And having a field, the municipality of Villanova takes advantage to make different events for all the ages like firas where people dance or do exhibitions like in November fira or music festivals.

At 1901, the Industrial School was inaugurated at Plaça de la Vila on the actual shop "Teixits La Rosa" until 1960 (school of industry would move on to the name of the Technical School of Industrial Expert).

It was moved in front of Biblioteca-Museu Víctor Balaguer, where you could learn industrial how to be an industrial expert.

Still in 1914, until mid of the 1920s, the school live a bad period, until it reached the current high school F. X. Lluch i Rafecas.

Now F.X. Lluch i Rafeques it's a high school where you can study ESO, batxillerat and cicles formatius. So, you can go there and choose many options about what to study.

There is another industrial school next to the station, and you can go there too.

Casa Andreu was a store for baby items and houseful items, but in the 60's the store changed to be an instrumental and record store. The shop sold all types of music.

The appearance of the internet hurt the store. People didn't buy records since they preferred to listen to music on their phone or computer because it was free.

The 'top blanket' (illegal street selling) hurt the store, too.

The store was open until 2017 because the owners retired.

PAST CHEMIST:

Alfredo Benavent Cuqurella bought Marina's chemist and changed its name for Benavent chemist, place it in la Rambla. When he died, the name of the chemist changed for Benavent's widow because his wife, María Huerva Clavería, was the one who managed the chemist.

Miquel Benavent Seguí, Alfredo's nephew, founded another chemist place in "la Plaça del Mercat".

Finally, the chemist placed in la Rambla was bought by Carmen Rodríguez, in the 70's aprox.

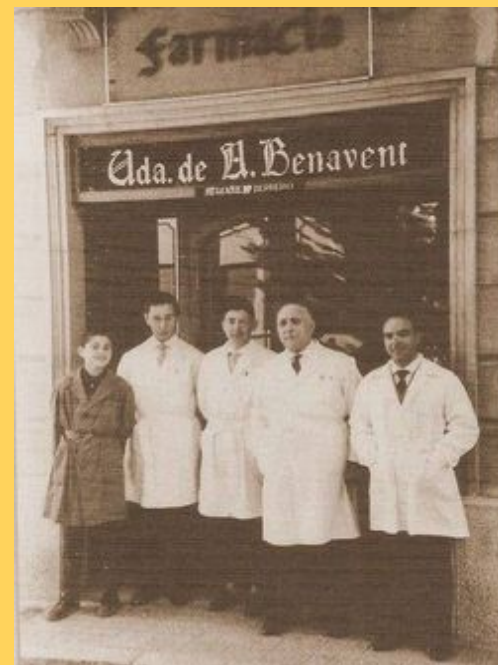

PRESENT CHEMIST:

Miquel Benavent died in 2010 and the chemist is managed by his older son, Josep Benavent.

Nowadays, there are 5 people working there.

Rodrigo's chemist is now Lobato's chemist and it's managed by Carmen Rodríguez daughters.

THE OLDEST SHOPS IN TOWN

CIRO AVETA SHOPS

In short, you enter a shop, in a "shop", in an old Greek-Neapolitan "puteca", purely derived from the Byzantine Greek (apothéke), which dates back to 1885, when the sammaritano Vincenzo Aveta, merchant, opened this exercise in a lower part of the palace of the baron Ventriglia, where for some decades the office of the notary Mario Matano has been based, among other things a dear classmate of middle school; then, after the First World War - closed by necessity - he moved it to the building opposite, at an angle with Via Martucci (formerly Via Torre).

FESTIVITIES AND TRADITIONS

BRELA, CROACIA

FESTIVITIES AND TRADITIONS

ŽUDIJE (The Jews) are the guardians of Christ's grave in the days of the Great Week, in Dalmatian traditional customs of the events of Jesus' resurrection.

This traditional custom has been spread throughout Dalmatia since the end of the 19th century. Over time, each parish has introduced its customs so that today these customs differ among themselves in their specifics.

The cripples are made up of 12 guards led by the commander of the so-called. "Judo" as a thirteen member. They are most often dressed in uniforms of Roman soldiers, somewhere in the uniforms of sailors or in folk costumes.

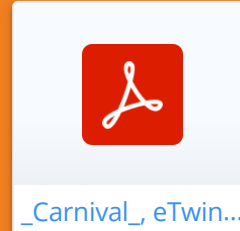

The resurrection starts on Great Thursday when they want to go to the altar, where the guards are switched from four to the Easter Sunday at Midnight on Easter Sunday, when they fall out of fear at Jesus' resurrection.

CARNIVAL

- It is a very popular celebration around Catalonia that consists on celebrating it isn't the Lent and you can eat a lot and go to parties, concerts, etc.
- Now, It is organized by an association that coordinates the entities that take part of the acts of carnival. "La FAC".
- In 1937, a law prohibited celebrating the carnival in Spain. Vilanova i la Geltrú was the only place that continued celebrating it during the war.

In Vilanova i la Geltrú's Carnival we celebrate:

- La merengada
- L'arribo
- Les Comparses
- L'enterro de la sardina
- etc.

Les Comparses

IES.FX.LLUCH I RAFECAS
VILANOVA I LA GELTRÚ

Take place on sunday's carnival.

The 'comparsers' used to throw almonds but now they throw sweets.

In the town hall square it is celebrated the sweetest war, which starts with the sentence "comparsers i comparseres, la plaça es vostra!" that means "comparsers and comparseres, the square is yours". This sentence was first said by Mr. Salvador Martí Gavalrà.

The typical song of "La Comparsa" is "El Turuta", which is a military march.

The Vilanova's carnival was declared an interesting national festivity in 1985.

Past

At the end of the XIX century the woman also working in the new industries. The labour conditions, of the workers and specially the woman were too bad, and their lives very miserable.

But, some woman, especially bourgeois, at the end of the XIX century started protesting. In Spain the woman obtain their rights and votes in the second republic of 1931. But started the civil war, woman had to work, and even some of them register in the army. But at the year of 1978 and the approve of a new constitution, woman recover the rights.

Present

Nowadays, women has the right to vote, decide what to do, what to study, and where to work, and although we are nearer to equality there are a few things that are unfair with womens.

For example, in 1979 only 6 of 35 candidates were women, and now a days, in the general elections of Catalonia, there were 8 political parties, and three of them were headed by women and five of them were headed by men.

WOMEN

IES FX LLUCH I RAFECAS
Vilanova i la Geltrú

Women in the past had a difficult life because in those times there was a lot of male chauvinism. They had to stay all day at home cleaning, they couldn't go to school, they had to get married and have children... In fact they suffer a lot of sexism, but luckily they were some women who tried to achieve the rights men had.

Nowadays, women life is much better than before. Society has advanced but there is still male chauvinism, many women die murdered by their husbands, many girls are raped, there is still an inequality salaried between men and women...

The background is a solid red color with a complex, low-poly geometric pattern. The pattern consists of numerous triangles and polygons of varying sizes, creating a faceted, crystalline effect. The lighting is subtle, with some areas appearing slightly darker than others, giving the pattern a three-dimensional feel.
